

Employee Lounges

McMaster University is committed to providing a healthy working environment for all University employees by ensuring that clean and comfortable lounge spaces are available for faculty and staff.

A steering committee developed design standards for the lounges. Each lounge is audited throughout the year for identification of upgrades and repairs. Eight lounges are available to faculty and staff.

In accordance with the [University Policy on the Use of University Facilities for Non-Academic Purposes](#), employee lounge space may not be booked.

All McMaster faculty and staff members can access any of these employee lounges by using their Photo ID card. If you are having difficulty with access, please ask your manager to send an email to axiomrep@mcmaster.ca with an explanation of the issue.
