Supplies:

- Paper Plate
- Construction Paper (2 shades of green)
- Decorations – balls, stickers, jewels
- Ribbon

(Parents/kids will need scissors & glue stick or glue gun)
Directions:

1. First cut out the circle center of your paper plate. Then paint or color it green. This is optional as most of the paper plate won’t be shown but a few small pieces may peak through.

2. Now cut out your handprints. Because you need quite a few, you can trace one and then use that to trace the rest. You can also fold over the paper 4 times so that when you’re cutting you get 4 handprints. We used 12 handprints – 6 lighter green and 6 darker green handprints.

3. Now glue to your paper plate. Alternate the different green handprints when gluing down.

4. Glue on your pom poms and rhinestones. We put 3 together to make them look like holly.

5. Finally add a red ribbon bow to the front and a loop of ribbon to the back for hanging.
