

Post-Retirement Benefit Co-Pay Program for Retired Staff from MUALA - Librarians

OVERVIEW:

- Post-retirement benefits (PRB) include both extended health and dental benefits.
- The PRB Co-Pay Program applies to Employees hired after May 5, 2011, with at least 10 years of continuing service and who have attained age 60.
- To be eligible for post-retirement benefits, the Employee must have been enrolled in the active extended health and dental benefit plans immediately before retirement and be enrolled in a Canadian provincial health care plan.
- Post-retirement benefits must be applied for prior to retirement. Application to participate in the Post-Retirement Benefit Co-Pay Program after retirement has commenced is not permitted.

CO-PAY PERCENTAGES AND RATES:

- Eligibility for post-retirement benefits, and the applicable percentage of the cost that a member is responsible for paying, is based on continuing service as at the date of retirement.
- The following table provides the percentage of the cost of post-retirement benefits that a member shall contribute:

Years of Continuing Service	Percentage of Yearly Cost payable by Retirees	Percentage of Yearly Cost Payable by University
30 or more	25%	75%
25 or more but less than 30	50%	50%
20 or more but less than 25	75%	25%
10 or more but less than 20	100%	0%

Note: MUALA members who retire with less than 10 years of continuing service are not eligible for post-retirement benefits.

DETERMINATION OF COST:

- The co-pay amount is based on post-retirement benefit costs for all retired staff which is used to determine the average cost per retiree with either single or family coverage.
- Co-pay rates will be determined annually based on the usage of the prior 3 years of benefits claims by all retirees with post-retirement benefits (not just those in the Co-Pay Program). The 3-year averaging is designed to reduce variability. Separate rates will be determined for Single Coverage and Family Coverage.
- The co-pay amount is not determined based on an individual retiree's usage.
- The cost of post-retirement benefits will be calculated by the University and will be effective May 1st of each year.
