

## **Organizational Leaders Program:**

Designed intentionally for academic and administrative organizational leaders at McMaster, this 9 month, cohort based, blended leadership development program focuses on:

- The Changing Landscape of Higher Education
- Priority Setting & Resource Allocation
- Collaboration & Partnerships
- Interconnections within the University System
- Leadership, Ambition & Challenge
- Succession Planning
- Difficult Conversations & Crisis Management

Through the program participants will engage through:

- In person sessions
- A leadership assessment
- Executive coaching sessions
- Senior Leader Panels
- Learning Labs
- A strategic problem evaluation supported through peer mentoring

## **Program Learning Outcomes:**

- Develop a comprehensive understanding of strategic priorities in the university's evolving landscape, explore university governance requirements and discuss the role of organizational leaders in driving the university mission.
- Develop skills to analyze and integrate internal and external insights into decisionmaking, effectively cascade and align organizational priorities across teams, navigate key financial metrics, the budget process, and operational governance, and apply prioritization tools to acknowledge and respond to emerging priorities
- Cultivate effective interdisciplinary connections and partnerships within the university, employing strategic influence and building trusting relationships to advance universitywide goals and team dynamics.
- Discuss opportunities to enhance the student and employee experience through collaborative efforts, fostering a student-centric mindset across all roles in the University, and explore how to streamline processes to support university goals efficiently across departments.
- Embrace and enhance your leadership role to effectively lead, mentor and inspire teams to excellence and foster an inclusive and innovative environment that enhances the employee experience and drives excellence.

- Prepare for future leadership transitions by understanding and applying effective succession planning processes, identifying necessary skills and knowledge for leadership roles, and facilitating developmental conversations.
- Enhance capabilities in managing complex interpersonal challenges, coaching others in people management and applying crisis management strategies effectively in both unionized and non-unionized environments.

January - February - March	- April	- May	- June	- July	- August	- September
